Subject: NIRB: 08EN037 Extension to Commenting Period for Draft EIS Guidelines for Uravan's Garry Lake Project

Dear Parties,

On November 21, 2008 the Nunavut Impact Review Board (NIRB) notified this distribution list that it was soliciting comments on the *Draft* Environmental Impact Statement (EIS) Guidelines for the Uravan Minerals Inc. Garry Lake project (NIRB File 08EN037), currently under Part 5 Review. Parties were asked to submit their comments to the NIRB on or before 12 pm MST, Friday, December 12.

On December 4, 2008 Uravan Minerals Inc. (the Proponent) requested an extension to this commenting period, to provide the time necessary to better understand the document and submit constructive comments regarding these *Draft* EIS Guidelines.

The NIRB considers this request reasonable and is hereby extending the deadline for all Parties' comments to **12 pm MST, Monday, January 12, 2009**.

These *Draft* EIS Guidelines are available for download from the NIRB's ftp site:
