Re: Finalized Guidelines for the Preparation of an Environmental Impact Statement for the Part 5 Review of Uravan Minerals Inc.'s Garry Lake Project

Dear Mr. Lahusen:

The attached guidelines are issued by the Nunavut Impact Review Board (the NIRB or Board) for the preparation of an Environmental Impact Statement (EIS) by Uravan Minerals Incorporated (the Proponent) for the Part 5 Review of the Garry Lake Project. Pursuant to Section 12.5.2 of the Nunavut Land Claims Agreement, it is the responsibility of the Proponent to prepare an EIS in accordance with any guidelines established by NIRB. The EIS developed in accordance with these guidelines will serve as the basis for NIRB's review of the Project, and will enable the Board and any interested party to understand and assess the potential for related adverse and beneficial environmental and socio-economic effects.

The NIRB respectfully requests that you review the attached guidelines and supply the Board with an anticipated date for the submission of an EIS at your earliest convenience. If you have any questions or require further clarification, please do not hesitate to contact NIRB's Technical Advisor, Ryan Barry, at (867) 983-4608 or at rbarry@nirb.ca.

Sincerely,

Jeff Rusk
Director, Technical Services - NIRB

For:

Stephanie Autut
Executive Director - NIRB
