That's right, authorizing agencies (including the NWB) cannot issue permits and licenses to the Proponent while the project is undergoing a Part 5 Review, and the Proponent cannot proceed with the Review until it submits an EIS to NIRB.

Thanks Ryan the May 11, 2009 letter from applicant is the latest we also have; the proponent cannot proceed with their project without NIRB review the EIS?

Hi Richard,

The Proponent has recently filed correspondence with NIRB (see email below) that suggests it is still considering how best to proceed with the Project – no EIS has been filed and no date has been given for an anticipated EIS submission.

Regards,

Ryan

Good morning Ryan;

I'd like to request an update on this file have they provided the EIS? How is the project proceeding?
