Dear Ms. Howe,

Water Use Permit Inspection - August 20, 1998
Permit NWB2GOO9801 - Goose Lake
Licence NWB2GEO9702 - George Lake

1. This letter is to summarize the results of the inspection that was carried out on the Kit Resources, Goose and George Lake camps on August 20, 1998.
2. At the time of the inspection, the camps was unoccupied. As such, the terms and conditions of the water permit/ licence are not applicable. All exploration activities were suspended in August, 1997 and were to restart in 1998. This has not happened due to poor economic conditions.
3. The inspection tour was used to familiarize the various representatives with current and potential mineral exploration activities in the Kitikmeot region of Nunavut. Should you wish to further discuss any aspects of this letter, please do not hesitate to contact this office.

Sincerely,

Paul Smith
Water Resources Officer
