From: Francis Jackson

Subject: HOMESTAKE CANADA INC. GEORGE LAKE - WATER LICENCE
RENEWAL APPLICATION

Date: February 5, 1997

I have reviewed the above submission and have the following comments:

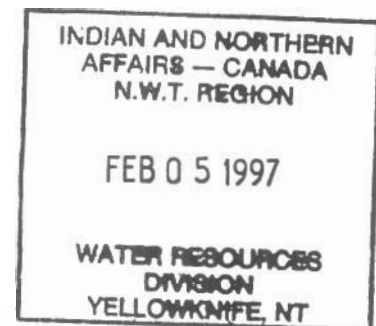

After looking at the compliance report dated, May 2, 1995 I see no concerns with renewing the licence as I the proponent has not used any water for industrial use.

Therefore I have no comments or concerns unless there is any other documentation with regards to work that may have been performed since this compliance report was produced. The period in question would be between the May 2, 1995 compliance report and the expiry date of the licence which was December 31, 1996.

Any questions please give me a call.
