Subject: Re: Question RE. Environmental Summary report

Hi Josee,

The information provided with the application was only an Executive summary. The 1997 Environmental Baseline Data Compilation Report prepared by KIT resources provides additional and specific details related to the George/Goose Lake project area.

In answer to your question, yes there exists additional information with respect to Wildlife in the 1997 report, which includes but is not limited to following:

- Norecol Dames & Moore (1997) terms of reference for Environmental Baselines and Impact studies (outlines:rational, previous work, and methodology);

-Hubert And Associates terrestrial wildlife and wildlife habitat studies (1997) titled, "Data Report Wildlife Observations in the Area around George Lake, Nunavut in June 1997", prepared by Hubert & Assoc.; and

-Wildlife Log 1993, 1994, 1997 Goose Lake area.

If you would like to receive copies of this information please contact Rita Becker at rbecker@polarnet.ca.

Please note I have forwarded this email to John Bokich, Manager of Environmental Compliance for Kinross. He may contact you separately to provide additional information or to clarify any information I have provided. If you wish to speak with him directly his contact information is:

Kinross Gold Corporation
John Bokich, Manager Environmental Compliance
802 E Winchester, Suite 100,
Murray, Utah 84107
Tel: 801-290-1112
Fax: 290-1102
Email: jbokich@kinross.com

If I can be of further assistance please do not hesitate to contact me.

Best Regards,
Dionne Filiatrault, P. Eng.
