**Subject: Licence No. 2BE-GEO1520 – Submission of 2016 Annual Report for the George Lake Property of the Back River Project**

---

Dear Ms. Keefe:

The Nunavut Water Board (NWB or Board) has completed its review of the 2016 Annual Report (Report) submitted on March 24, 2017, by Sabina Gold and Silver Corp., to fulfill relevant requirements of Licence No. 2BE-GEO1520 (Licence), issued to the George Lake property of the Back River Project. The George Lake property is primarily associated with exploration activities and is located approximately 400 kilometres south of Cambridge Bay, in the Kitikmeot Region, Nunavut.

The review determined that the Report is generally complete and consistent with the reporting requirements under Part B, Item 2, of the Licence. The Board notes, as indicated in the Report, that no operational activities occurred during the 2016 reporting period; therefore, no waste was deposited or water used.

Copies of the Report, which the Board distributed publicly for information purposes on March 27, 2017, and other documents pertaining to the file and Licence can be accessed through the NWB's Public Registry and FTP site using the following link:
