"Leslie Payette" <lpayette@nirb.ca>

Good morning ladies...

Attached please find copies of the 2009 Goose Lake and George Lake spill contingency plans for review by the appropriate parties - please distribute to them as you see fit.

The documents are marked "Draft - For Review", so are not for public distribution or placement on the web/ftp sites until approved and resubmitted by me.

Please let me know if you need anything else. The Abandonment and Restoration plans will follow in the near future...

Have a great weekend!

Regards,

Dan.
