Re: Assignment from Wheaton to Kinross
--

Eric Goldsilver called in response to my e-mail from the other day.

For NWB1GOO0104, he confirmed that (as Jack Kaniak had also indicated) that Kinross now has 100% ownership, so no Joint Venture exists and no changes need to be made to this licence.

For NWB2GEO9702, he indicated that Arauco NWT Limited had a name change to Kit Resources and then a name change to Wheaton. He still wants this assignment to take place, so he will be sending over the articles with the legalistics of these name changes, so that we can go ahead with the assignment.
