Dear Mr. Hohnstein,

Miramar Bathurst Resources Ltd is pleased to provide the following clarifications required to proceed with the renewal of the Goose Lake Water License, NWB1GOO104.

1. The Location of Undertaking is at 65° 35' latitude and 106° 25' Longitude, as stated in the original description.
2. Land Use Permit KTL304C017 is active from May 30, 2004 to May 31, 2006. An amendment for trenching was received this January but does not change the dates of the permit. A copy of the amended permit is enclosed.
3. All water is to be drawn from Goose Lake.
4. Drilling will be typically land based. However, if future land based drilling suggests the deposit extends into the lake, drilling on ice may occur.
5. Miramar Bathurst Resources Ltd. SCP is enclosed digitally with the e-mail and in hard copy with the couriered letter.
6. The Abandonment and Restoration Plan is pending and will be forwarded as soon as it is prepared, likely the last week in January.

If there are any questions or comments regarding the above or the original application, please do not hesitate to contact the undersigned via e-mail at [vmclennan@miramarmining.com](mailto:vmclennan@miramarmining.com) or by phone.

Regards,

*"Original Signed by"*

Vivienne McLennan  
Interim Land Manager
