Sophia;

Our office sent the extension request which was for the extension of road under permit # N2004F0006 (NIRB #04RN015) which is the road connecting Goose to George Lake yesterday. In a separate transaction I also forwarded a copy of a new Land Use Permit application under the INAC#N2009F0015 which is a proposed road which would connect George Lake to Hackett River from Sabina as well. This application was sent to Amanda Hanson yesterday, however I can send you a copy as well if you would like.

Thanks Sophia.

Hi Brian,

On October 19, 2009 the NIRB received an extension request from INAC (File # N2004F0006) for Sabina Silver Corporation's Winter Road in the Beechy Lake area. After a preliminary review of the application for the winter road connecting

Hackett River and George Lake camps, and for the winter road connecting George Lake and Goose Lake camps, it appears that the project proposal will require screening by the NIRB. The NIRB requests copies of the land use applications for review.

Regards,

Sophia Granchinho
