Subject: Re: 2BE-GOO0510 Goose Lake Project MMG Resource Inc. Renewal & Amendment application

No problem, I can copy you on the Hackett River and George Lake comments I make too as I come across them if you want.

Technically speaking the Nunavut Water Board **MUST** have a public hearing if there is any public concern expressed before they can approve anything.

However they have never done this.

Alice.

Dear Mr. Dwyer,

This application to renew the Goose silver mining exploration project must be sent for a public hearing involving the Dene and the Bathurst inlet HTOs as it is an exploration project within the Bathurst Caribou Calving grounds. In light of the recent hunting ban it is unacceptable to approve this renewal without a public hearing.
