Hi Phyllis: Where is the Goose Lake Camp located and would you have any details about the camp. Robert Phillips is no longer here and I am providing coverage until the new Environmental Health Officers starts in July. Thanks.

Bruce

For your information and any action. The Nunavut Water Board received telephone call on June 28, 2005 from a concerned employee at the Goose Lake Camp. The employee did not wish to have his name revealed. He indicated that the water is not fit for human consumption, no sampling had been done that he knows of, and he and others were told to purchase bottled water at their own expense if they didn't like what was provided.
