**Subject: Submission of Spill Plans under transferal of License 2BE-GOO0510**

Dear Mr. Russell:

The Nunavut Water Board ("NWB") would like to acknowledge receipt of the above documents on July 6, 2007. The document was distributed for review and comments with a submission deadline of August 13, 2007. No major concerns were expressed by the Parties. The document fulfills the requirements outlined in NWB Licence 2BE-GOO0510, and is hereby considered complete by the NWB under **Motion 2007-51**, dated December 12, 2007.

The Licensee is requested to note that an *addendum* to the approved 2BE-GOO0510 Spill Contingency Plan, to address minor issues raised by the Parties is required to be prepared and submitted as part of the 2007 Annual Report.

Issues to be addressed in the *addendum* to the Plan are to include:

- MSDS for all products on Site should be included in the Plan;
- Update the Spill Report Form to the new Nunavut/NWT Spill Report Form;
- More information on disposal options for contaminated soils;
- A topographic map of the Goose Lake/George Lake camp that includes structures and water bodies;
- Section 7.2.4 bullet one should be updated as the 24 hour number must be called in event of a spill;
- Section 7.2 should assign responsibility for filling out the GN Spill Report Form;

- Update 4.0 EC 24 hour Emergencies Pager to 867-766-3737;
- Recommend the Plan to be updated to reflect comments made by INAC;

Should you have any further questions, please feel free to contact Phyllis Beaulieu, Manager of Licensing, by telephone, or by email at [licensing@nunavutwaterboard.org](mailto:licensing@nunavutwaterboard.org).

Yours truly,
