Subject: RE: 2BE-GOO1015 AR Plan

Good Morning,

The additional camps have not been established to date and based on the current 2011 exploration program, these camps will not be needed to support resupply and/or exploration activities. If this changes over the year, we will advise the NWB of that decision 45 days prior to their establishment (this commitment was made within the application) and revise the A&R Plan accordingly within the 45 days after their establishment. Elizabeth

Good afternoon,

Further to 2BE-GOO1015 amendment 1 Abandonment and Restoration:

The Board has approved the Plan entitled "Back River Project Abandonment and Restoration Plan Goose Lake Camp" dated December 2009 that was submitted as additional information with the Application. The Licensee shall revise the Plan to include the geographical locations and site details of the four (4) small camps within 45 days of their establishment. The revision shall be submitted to the NWB for review.

have the 4 additional camps been established? I wish confirm if they've been established or not.

Thanks.
