**Subject: Licence No. 2BE-GOO1015 Goose Lake – Back River Project  
Submission of updated Spill Contingency and Abandonment and Restoration Plans**

Dear Mr. Pickard,

On October 1, 2012, the Nunavut Water Board (“NWB” or “Board”) received the following documents:

- “Sabina Gold & Silver Corp. Comprehensive Spill Contingency Plan GOOSE CAMP September 2012” and
- “Sabina Gold & Silver Corp. Back River Project Abandonment and Restoration Plan Goose Camp and Exploration Project Sept 2012”, respectively.

The updated Spill Contingency and Abandonment and Restoration Plans were found to generally conform to the requirements specified under Part H, Item 5 and Part I, Item 16 of the Licence 2BE-GOO1015.

However, the Spill Contingency Plan should also include the following information:

- NWT/NU 24-Hour Spill Line number as (867) 920-8130;
- Contact information for Sabina Spill Response Team provided in Appendix A;
- Identification of a 24 Hour contact person and 24 Hour phone number; and
- A NT-NU Spill Report form.

This information can be submitted in the form of an Addendum to be included with the next Annual Report.

The NWB acknowledges the efforts being made by the Licensee to comply with all terms and conditions of the Licence, however, would like to remind the applicant that Part E, Item 6 of the Licence requires a Quarry Development Plan to be submitted for the Board approval within sixty (60) days of issuance of the Amendment No. 3.

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 Ext. 30 or [k.kharatyan@nunavutwaterboard.org](mailto:k.kharatyan@nunavutwaterboard.org), at your earliest convenience.

Yours truly,

Karén Kharatyan  
Technical Advisor
