

Non technical Summary

GOT and Yuka Exploration Project

This mineral exploration project is located on Crown Lands mostly north and northwest of the Amaruq mineral property. The nearest community, Baker Lake, is located between 130 km and 150 km mostly south of the mineral property.

The water licence 2BE-GOT1924, covering exploration activities in this area, will expire by the end of June 2024. The present is an application to renew the licence for another term of 5 years. An enlargement of the mineral property is also proposed within this renewal/amendment application. Agnico Eagle Mines Ltd. is the owner of this exploration project and is responsible for the management and respect of all authorizations and conditions associated with the exploration activities in the area. The exploration activities include prospection, till sampling, geophysical surveys and diamond drilling. Workers will be accommodated at the Whale Tail camp site as no exploration camp is proposed to be installed as part of this application.
