Hi David,

Yes, I confirm that the amendment of the existing water licences was included in the application submitted to the NPC and were considered in our review , therefore the conformity determination issued is applicable.

Please see for reference bellow section of the submission that we have taken into account during our review:

“An application for a new water licence and a new land use permit covering the Anuraaqtuq project will be submitted to NWB and to CIRNAC. An amendment to exiting water licences and land use permits will be submitted for the mineral properties that were enlarged.”

Thank you,

Goump

Good Morning,

The NWB is asking, in the communication below, that the NPC confirm if the conformity determination attached is applicable to the renewal/amendment of the water licence 2BE-GOT1924 that I just applied for.

In the NPC letter attached, the enlargement of the GOT and Yuka was validated by the NPC in April 2024, but I think that the renewal/amendment of the water licence 2BE-GOT was not specified in the application, this is probably why NWB is asking this confirmation from the NPC.

Do I need to complete an application to the NPC related to this water licence renewal/amendment?

2. Associated with the renewal of the water licence 2BE-GOT1924, associated with the renewal of the water licence 2BE-GOT1924.
3. Summary of modification: Expansion of the exploration activities to the new claims areas which will now include the new Anuraaqtuq mineral property, and some adjustments between previous and actual claims boundaries, including an enlargement of the mineral properties GOT and Yuka as well as some claims expansion done by CIRNAC in 2021
