Subject: letter from HTO to NWB
Date: Monday, September 12, 2011 2:37:00 PM

hi Simon:

i am writing again as I met Phyllis Beaulieu with the Nunavut Water Board today when I was in the Rankin Inlet airport. Phyllis told me that they still have not received the letter that you said you would send to them.

Can you please make sure that you send them the promised letter. It is very important that the letter is sent to them so that the Nunavut Water Board understand's that the HTO has no issues with Indicator Minerals.

thanks again and I appreciate your help.
