Hi Phyllis,

On the Grail Project the Taloyoak hunters & Trappers Organization board don't want the water licence issued to Indicator Minerals Inc because the area is a calving area for Caribou and musk ox also the stream from the area flow right into the lake where Taloyoak do commercial fishing. As they have indicated in the past the Taloyoak Hunters & Trappers Organization don't want any exploration around the area. The Board is concern about the hunting area not only hunting also the health of our Community because the way the river flows from the area where Indicator minerals wants to start the project. Before anything is done the Taloyoak Hunters & Trappers Organization wants a public meeting with all departments the deal with the project. I will be waiting for your respond on this matter. Have a nice day.
