Good Morning David

This email is related to the Application for the renewal of a licence you submitted to the Board.

During the final technical review I found that the Project coordinates in the submitted Application Form (Item 4 location of the undertaking) do not match the Water Licence Project coordinates.

This information needs to be checked in order to ensure we are talking of the correct geographical location.

Please, could you check the information?

Also, provide a simple map showing in the same map the location of the Project as it is stated in the licence and in the application for renewal.

Regards
Sonia
