**RE: NWB Technical Review of 2017 and 2018 Annual Report for the Greyhound Project;
Water Licence No. 2BE-GRE1621**

Dear Mr. McNeice and Mr. Frenette:

The Nunavut Water Board (NWB) has completed a technical review of the 2017 and 2018 Annual Reports.

On October 24, 2018, the NWB acknowledged receipt of the 2018 Annual Report and provided it to the Kivalliq distribution list for information. Similarly, on October 12, 2017, the NWB acknowledged receipt of the 2017 Annual Report and provided it to the Kivalliq distribution list for information. No comments have been received to date for either report.

The technical review of the 2017 and the 2018 Annual Reports found that the information generally addresses the requirements of the Licence.

The NWB notes that the Licensee has not provided all the submissions previously required by the Licence:

- Part H, Item 1:

The Licensee shall submit for Board approval within thirty (30) days following issuance of the Licence, a revised **Spill Contingency Plan**.

To date, the NWB has no record of receiving this information which was due on November 6, 2016.

- Part I, Item 1:

The Licensee shall submit to the Board for approval within sixty (60) days of issuance of this Licence, an updated **Abandonment and Restoration Plan**.

To date, the NWB has no record of receiving this information which was due on December 6, 2016.

Should you have any questions, please feel free to contact me, Dave Baines, at (867) 360-6338 (extension 29), at your earliest convenience.

Sincerely,

Dave Baines
Nunavut Water Board,
Technical Advisor
