Attached is the info received from Scott. We will just keep the assignment on hold until official documents are received.

Regards,

Hi Phyllis,

I'm not aware of what information Scott has provided you at this time. However, Sabina is not ready to transfer the water license to Xstrata because we are waiting for the Mining Recorder's Office to register the transfer of the mineral claims and permits. We have been told that the Mining Recorder would not be in a position to work on the file until the end of October at the earliest.

Please feel free to call me at 604-998-4178 if you would like to discuss further.

Best regards,

Elaine Bennett

Good afternoon Scott – the Nunavut Water Board acknowledges the information you provided on the official sale of the Hackett River Project from Sabina to Xstrata. Could you please make arrangements for copies of the pertinent documentation to be provided to our office so that the assignment licence may be issued. Thank you.

Regards,

Phyllis Beaulieu
