Good morning, Rick:

Part D, Item 10 of Licence No. 2BE-HAK0915 is requesting that section 4.2 of the Waste Management Plan (WMP) be revised to indicate that specific requests will be filed, on an as-needed basis, with the NWB for approval to carryout open-burning activities.

Please note that the open-burn-pit mentioned in your email will fall under the above-mentioned change(s) requested for section 4.2 of the WMP.

Regards,
Sean

Subject: FW: Water Use Permit 2BE-HAK1621- Waster management Plan Revision

To: licensing@nwb-oen.ca

Good morning, I am looking for some help with a condition in our water use permit

Our new water use permit 2BE-HAK under Item 10 Section D: Conditions Applying To Waste Management required us to revise section 4.2 of the Hackett River Waste Management Plan> This is the section of the plan that deals with open burning. I have attached a revised section 4.2 for your review. Any feedback would be appreciated. I will incorporate your comments and issue a revised waste management plan. Thank you

4.2 Open Burn Pit

Large pieces of untreated wood, cardboard and material comprised of natural fibres may be burned in a controlled open burn in accordance with the Government of Nunavut's Guideline for the burning and incineration of solid waste. The activity will be carried out in a manner that no ash, residue, or other by-products of the burn may enter or impact nearby water bodies. All ash from incineration and burning will be collected in empty drums, sealed, labelled and shipped offsite to an approved disposal facility

A single burn pit approximately 15 m from the current incinerator location toward the southwestern area of the camp has been established. This area is in excess of 30 m away from Camp Lake and other waterways.
