A maximum of 10 people will be on site. The camp will remain open for three weeks. Activities planned for this trip will include maintenance, environmental inspection, and the removal of waste. As per the terms of various licenses, best management practices will be applied.

We currently anticipate closing Hackett Camp on or about April 22 and will advise you of the date as we complete our program. An additional three visits are scheduled in the summer and fall to inspect and monitor the site.
