Reference your fax of July 17, 2002. The determination that you require a water license is based on information from the Interim Procedures and Information Guide for Applicants which reads:

4. Undertakings Which May Require a License

With the exception of domestic or emergency use of waters as defined in this document and as set out in Section 5 of the *Northern Inland Water Act*, no person may use water or deposit waste without the approval of the Board. Such exceptions include:

- i. persons using water for household requirements;
- ii. watering of domestic animals;
- iii. any use connected with shipping or boating;
- iv. fire suppression; and
- v. controlling or preventing a flood

All other types of water use and deposit of waste, without any exception, shall be approved by the Board. This approval may take the form of a license, a permit, or an authorization.

These procedures and other water regulations are available on our website at <ftp://ftp.nwb.yk.com> in the folder "NWB Administration", sub-folder "NWB General Information", sub-folder "Agency Regulations".

If you have any further questions, please do not hesitate to contact us.

Sincerely,

Phyllis Beaulieu
