Good afternoon Tanya

The attached documentation was received by the NWB on May 19, 2011 in relation to the closure of these two files. It is my understanding that the information contained within the June 8, 2010 letter and the November 12, 2010 letter from Land Administration in Iqaluit does not constitute a final closure of the site from Water Resources Division. Please review and advise.

Phyllis Beaulieu
