RE: Water License Inspection, Henik Lake Project

I am currently engaged in the planning and development of the 2013 field inspection schedule.

While it is too early to predict the exact date, I will be attending the site to conduct inspections on the water use and disposal, waste management and other related water license issues I hope to be in the Kivalliq Region and conducting inspections starting on the 1st of July with your inspections scheduled for the 9th of July, 2013:

I am requesting assistance in preparing for the inspection. If possible I would like to know the following information;

- Names and positions of staff associated with this project
- Confirmation of exact coordinates (degrees/min/sec, NAD 83) of activities (i.e.: fuel caches, camp, and drill locations).
- Any other information you feel is pertinent for a site visit (i.e.: Most recent activities program, site hazards or restrictions, site safety protocols, etc.).
- Land use permit (LUP) numbers which are associated with this particular site
- Are there any outstanding documents or documents recently submitted to the Nunavut Water Board (i.e.: within the last 60 days)

This information will allow us the opportunity to review the terms and conditions of this license with yourself or your staff and resolve the outstanding issues.

I remind you that annual reports must be submitted for 2006, 2007 and 2008 as per Part B of your license before the date of inspection. Attached for your convenience is a standardized template for annual reporting and a guide to assist.

The expiry of this authorization does not absolve the Licensee of the terms and conditions found within the License.

Failure to undertake the actions required as described in this letter, and to the satisfaction of the Inspector, may result in enforcement action(s) being undertaken pursuant to the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*.

I am looking forward to our visit and hope we have the opportunity to work cooperatively together this coming year.

Sincerely,

Sent by E-mail

Christine Wilson
