**Subject: Submitted addendum as per Part G, Item 1 of Licence 2BE-HEP0712 issued
February 26, 2007**

Dear Ms. Jober:

The Nunavut Water Board ("NWB") would like to acknowledge receipt on April 28, 2008 of the above document submitted under Part G, Item 1 of Licence 2BE-HEP0712. After an internal technical review of the updated Spill Plan, the document was found to generally meet the requirements set out in the Licence and is hereby accepted. All future updates to the spill plan should be filled with the annual report. The updated spill plan was found to be deficient in a few ways;

1. The site map shall be at a scale that makes it possible to see all structures in the camp, fuel storage areas, as well as the water source and greywater and sewage disposal areas;
2. The emergency contact numbers shall list the numbers of the departments in Nunavut and not only NWT;
3. The contents of the spill kits shall be listed;
4. The MSDS sheets for all fuels and chemicals shall be provided;
5. A copy of the Nunavut Spill Form shall be attached to the document;

Should you have any further questions, please feel free to contact the undersigned at 867-360-6338 or by email: dbridge@nunavutwaterboard.org

Yours truly,
