**Subject:** Wolfden Resources Water permit Renewal - High Lake

Dear Phyllis,

Please find attached updated Spill Contingency and Abandonment and Restoration documents for the High Lake project regarding our application for renewal on water license NWB2HIG0305. I have also included a letter explaining our planned geotechnical drilling which would mean drilling within the 30m boundary of water bodies. I had discussed this briefly with David on Monday 27<sup>th</sup> of June, and he had indicated that a simple letter might be the best way to deal with it. I will give you a call first thing tomorrow morning to confirm that you have all the information necessary to proceed with our renewal.

Regards,

Ian

**Ian Neill**
