Subject: Wolfden Resources Inc. – Request for Screening – New Application

The Nunavut Water Board received a new application on March 6, 2001 from Wolfden Resources Inc. for water use and waste disposal associated with exploratory drilling.

In accordance with Articles 12 and 13 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada*, this project shall be screened by the Nunavut Impact Review Board to determine whether it has significant impact potential, and whether it requires review, before the application can be processed by the Nunavut Water Board.

I am sending the application documents along with this letter. However, please note that the Inuktitut translation of the summary is still forthcoming and will be forwarded to your office upon receipt. As well, Wolfden Resources Inc. has indicated that they are mailing copies of baseline studies as additional information.

Please let our office know in writing when we can expect the screening decision so that we can set our deadline for public concerns accordingly.

Sincerely,
