Subject: Wolfden Resources Ltd. – High Lake – **Request for Screening** – Renewal

The Nunavut Water Board received an application for water license renewal on February 13, 2003 from Wolfden Resources Ltd. for water use and waste disposal associated with exploratory drilling.

In accordance with Articles 12 and 13 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada*, this project shall be screened by the Nunavut Impact Review Board to determine whether it has significant impact potential, and whether it requires review, before the application can be processed by the Nunavut Water Board. ***Please note that this file was previously screened under NIRB file number 01WN021 in April 2001.***

The application documents are available through the internet on our ftp site at <ftp://ftp.nwb.yk.com> in the folder “NWB2HIG.” A preliminary technical review indicated additional information was required to complete this application. Once received, this information will be made available to interested parties.

If for any reason, the screening process will be less than 45 days, please let our office know immediately so that we can set our deadline for public concerns accordingly.

Sincerely,

Original signed by:

Phyllis Beaulieu
A/Licensing Administrator
