Dear : Richard

**Re: License Renewal for High Lake, License No. NWB2HIG0305**

Richard, please find enclosed three copies of an application package and a cheque for \$60.00 for the renewal of the Water License for Wolfden's exploration operations at the High Lake property. This covers camp operations and diamond drilling for mineral exploration purposes. This license is separate from and supplements other Water License applications that cover construction of the Relicensing Project and the future High Lake mine development process.

I am currently having the project summary translated in to Inuktituk and Ininnuaqtun and I will forward these translations once they are complete, which I expect to be in about one week's time.

If you have any questions concerning these applications, please do not hesitate contact me at your convenience.

Sincerely  
**For: WOLFDEN RESOURCES INC.**
