Hello Assol and Sergey,

I just wanted to follow up with you in regard to our conversation re: water use allocation for the High Lake Project.

In consideration of your input, MMG has decided to request amendment of 2BE-HIG1722 with the upcoming renewal to ensure adequate water is allocated to camp use.

We will convert the renewal application into an amendment for submission to the NPC and NWB.

As discussed, we understand that 2BE-HIG1722 will be expired until renewed, and MMG will ensure that no wastes are deposited, or water used, during the upcoming site care and maintenance visit.

Please let me know if you have any questions or comments.

All the best,

Katsky
