Good afternoon,

The Nunavut Water Board (NWB) provides notice that, on January 19, 2026 an application for an amendment and renewal of water license for water use and/or waste disposal associated with activities in the Kitikmeot region of Nunavut was filed by MMG Resources Inc. By way of this correspondence, the Board invites parties to provide the NWB with their comments with respect to the application as outlined below. The application consists of the following documents:

- Cover Letter
- Application for Amendment and Renewal
- Waste Management Plan
- Certificate of Amalgamation
- Inspections Responses
- Hight Lake Area Overview
- High Lake Authorization Letter
- Leases, Permits, Authorizations
- NPC Determination 150635
- Non-Technical Summaries
- Spill Contingency Plan
- Closure & Reclamation Plan
- Wildlife Mitigation and Monitoring Plan

The application can be obtained from our ftp site at the following link:

<https://public.nwb-oen.ca/registry/2%20MINING%20MILLING/2B/2BE%20-%20Exploration/2BE-HIG2328%20MMG/1%20APPLICATION/2026%20Amendment%26Renewal/>

As noted in the NWB's earlier correspondence acknowledging receipt of this application, under the Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada (Nunavut Agreement) Article 11, Section 11.5.9 and s. 76 (1) of Nunavut Planning and Project Assessment Act (NuPPAA), the proponent of a project proposal governed by the Nunavut Agreement and NuPPAA that requires a water licence/approval is required to submit a project proposal document directly to the Nunavut Planning Commission (NPC or Commission). The NPC then reviews the project proposal and makes a determination regarding the applicable land use planning requirements and/or provides direction regarding whether the project proposal is subject to screening by the Nunavut Impact Review Board (NIRB). Under Articles 11, 12 and 13 of the Nunavut Agreement, NuPPAA and Part 3 of the Nunavut Waters and Nunavut Surface Rights Tribunal Act (NWNSRTA), until the project proposal has concluded the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence/approval.

Please be advised that on April 16, 2025 the NWB received the required determinations and recommendations from the NPC, the NIRB screening decision was received August 25, 2025.

Now that the application has concluded the pre-licensing steps required under the Nunavut Agreement, NuPPAA and the NWNSRTA, the NWB is now proceeding to the next steps in processing the application, including providing the attached Notice of Application which will be published in due course. In addition, to ensure this application is dealt with in a timely fashion, the NWB has forwarded notice of all documentation received by the NWB in respect of the application to regulators and Council of the Municipality(ies) most affected by the project. The NWB is also inviting interested parties to make representations about the application, including information requests, identifying issues of water user compensation and providing technical review comments directly to the NWB within thirty (30) days from the date of this letter; on or before March 03, 2026.

Regards,

Richard
