Hi Richard,

Thank you for the review of the annual report.

Site visits were carried out in September to follow up on the observations made by Eva Paul, and the immediate concerns were addressed.

Refuse was collected at both sites and damaged structures were repaired at High Lake. The boating supplies that were stored in a locker on the dock have been removed.

The issue of the historic drill steel remaining at both sites is one that at some point in time I would like to discuss with you.

Regards,

Theodore J. Muraro**Manager Exploration Support - Americas****Corporate Affairs - Canada****MMG Limited**
