OFFICE DES EAUX DU NUNAVUT

APPLICATION FOR WATER LICENCE AMENDMENT

The applicant is referred to the NWB's Guide 7: Licensee Requirements Following the Issuance of a Water Licence for more information about this application form.

Where possible, provide background information regarding the original licence application or attach previously submitted information.

EXISTING LICENCE NO: 2BE-HIG2328

1. LICENSEE CONTACT INFORMATION

Is the licensee the same as that referred to on the existing licence?

Yes No

If No, a licence assignment must be completed and approved by the NWB. **An amendment will only be issued in the name of the current licensee in the absence of assignment of the licence.**

If the licensee is the same, but the name of the licensee has changed, attach a certificate of name change.

Name: MMG Resources Inc.

Address: *PO Box 91460
West Vancouver, BC
V7V 3P1*

Phone: (604) 358-8155

Fax:

e-mail: *AmericasTenements@mmg.com*

2. LICENSEE REPRESENTATIVE CONTACT INFORMATION – If different from Block 1.

Name: Catherine Knight, Vice President Canada, MMG Resources Inc.

Address: *PO Box 91460
West Vancouver, BC
V7V 3P1*

Phone: (604) 358-8155

Fax:

e-mail: *catherine.knight@mmg.com*

See Attachment 3 for Authorization Letter.

3. NAME OF PROJECT

Has the name of the project changed?

Yes X No

If Yes, indicate the name of the project including the name of the location: _____

4. LOCATION OF UNDERTAKING

Does the proposed amendment change the location of the amended undertaking?

X Yes No

Provide the project extents and camp locations. Identify proposed changes.
*Changes have been indicated in **bold**, below.*

Project Extents

NW:	Latitude: (68° 00' 00" N)	Longitude: (112° 30' 00" W)
NE:	Latitude: (68° 00' 00" N)	Longitude: (109° 30' 00" W)
SE:	Latitude: (66° 30' 00" N)	Longitude: (109° 30' 00" W)
SW:	Latitude: (66° 30' 00" N)	Longitude: (112° 30' 00" W)

Camp Location(s)

Latitude: (67° 22' 45" N) Longitude: (110° 50' 37" W)

5. MAP

Does the proposed amendment change the locations of any of the main components of the undertaking?

✓ Yes No

Attach a topographical map, indicating the main components of the undertaking. Identify proposed changes.

See Figure 1, attached – MMG High Lake Overview (Attachment 2) which indicates the current geographical extent of the Water Licence, and the proposed extent.

NTS Map Sheet No.: 76M/76N Map Name: Hepburn Island Map Scale: 1:610,000

6. NATURE OF INTEREST IN THE LAND

Does the proposed amendment change the nature of the interest in the land?

Yes No

If Yes, indicate changes. _____

Check any of the following that are applicable to the proposed undertaking (at least one box under the 'Surface' header must be checked).

Sub-surface

Mineral Lease from Nunavut Tunngavik Incorporated (NTI)

Date (expected date) of issuance: *January 1, 2022* Date of expiry: *December 31, 2041*

Mineral Lease from Indian and Northern Affairs Canada (INAC)

Date (expected date) of issuance: *_See Table 1, Attachment 4 for all Mineral Lease Numbers and expiries.*

Date of expiry: _____

Surface

Crown Land Use Authorization from Indian and Northern Affairs Canada (INAC)

Date (expected date) of issuance: *July 26, 2024* Date of expiry: *July 25, 2029*

Inuit Owned Land (IOL) Authorization from Kitikmeot Inuit Association (KIA)

Date (expected date) of issuance: *_June 2025_* Date of expiry: *_TBD_*

IOL Authorization from Kivalliq Inuit Association (KivIA)

Date (expected date) of issuance: _____ Date of expiry: _____

IOL Authorization from Qikiqtani Inuit Association (QIA)

Date (expected date) of issuance: _____ Date of expiry: _____

Commissioner's Land Use Authorization

Date (expected date) of issuance: _____ Date of expiry: _____

Other *_CIRNAC Surface Lease 76M/7-1-11 (0.947 hectares) Expiry December 31, 2047. See Attachment 4*

Date (expected date) of issuance: _____ Date of expiry: _____

Is the name of the entity(s) holding authorizations the same as that considered in the existing water licence?

Yes. A summary of sub-surface mineral leases and land use authorizations held by MMG and associated with this Water Licence is provided in Attachment 4.

Note: Land Use Authorization KTL308C008 previously held with the Kitikmeot Inuit Association for IOL received approval for closure on March 1, 2016.

Yes No

If No, a licence assignment must be completed and approved by the NWB.

Name of entity(s) holding authorizations: MMG Resources Inc.

7. NUNAVUT PLANNING COMMISSION (NPC) DETERMINATION

Indicate the land use planning area in which the existing project is located.

- | | |
|---------------------------------------|--|
| <input type="checkbox"/> North Baffin | <input type="checkbox"/> Keewatin |
| <input type="checkbox"/> South Baffin | <input type="checkbox"/> Sanikiluaq |
| <input type="checkbox"/> Akunnig | <input checked="" type="checkbox"/> West Kitikmeot |

Does the proposed amendment change the land use planning area?

Yes No

If yes, indicate the land use planning area in which the amended undertaking is located.

- | | |
|---------------------------------------|---|
| <input type="checkbox"/> North Baffin | <input type="checkbox"/> Keewatin |
| <input type="checkbox"/> South Baffin | <input type="checkbox"/> Sanikiluaq |
| <input type="checkbox"/> Akunnig | <input type="checkbox"/> West Kitikmeot |

Was a land use plan conformity determination required from NPC prior to the issuance of the existing water licence?

Yes No

If Yes, indicate date issued and attach copy. *October 17, 2022; NPC File No. 149834 (Attachment 5)*

Does the proposed amendment change the original NPC conformity determination or the need to obtain one?

Yes No

If Yes, indicate date issued (or expected) and attach a copy. *A Project Proposal was submitted to the NPC for a conformity determination on March 18, 2025, and a determination (Attachment 5) was received April 19, 2025. The Project was referred to the NIRB for screening. A Project Proposal was submitted to the NIRB on May 9, 2025.*

If No, provide written confirmation from NPC confirming that a land use plan conformity review is not required.

8. NUNAVUT IMPACT REVIEW BOARD (NIRB) DETERMINATION

Was a screening determination required from NIRB prior to the issuance of the existing water licence?

Yes No

An overview of the previous, related NIRB files is included in the cover letter of this amendment application.

If Yes, indicate date issued and attach copy.

Does the proposed amendment change the original NIRB screening determination or the need to obtain one?

Yes No

If Yes, indicate date issued (or expected) and attach a copy. *A Project Proposal was submitted to the NIRB on May 9, 2025 (Application form 126178, 25EN034). A determination is expected in June 2025.*

If No, provide written confirmation from NIRB confirming that a screening determination is not required.

9. DESCRIPTION OF UNDERTAKING

Does the proposed amendment change the description of the undertaking?

Yes No

List and attach plans and drawings or project proposal. Identify proposed changes.

See the non-technical summary (Attachment 6), as well as the Spill Management Plan (Attachment 7) and Closure and Reclamation Plan (Attachment 8). The only change requested is the renewal and the geographic extent of the water licence. No additional water is requested (total allocated water would remain 100 m³/day) and water sources remain the same.

10. OPTIONS

Does the proposed amendment change any of the alternative methods and locations that were considered to carry out the project?

Yes No

Provide a brief explanation of the alternative methods or locations that were considered to carry out the project. Identify proposed changes.

MMG retains 45 CIRNAC mineral claims in the High Lake region. Sixteen of those claims are partially or entirely outside of the extent of MMG's existing NWB water licence 2BE-HIG2328. There is no change in total water use or in water sources, no requirements for additional NIRB screening is anticipated. No further changes to this already-established Project have been identified as necessary or beneficial.

11. CLASSIFICATION OF PRIMARY UNDERTAKING

Indicate the primary classification of undertaking for the existing licence by checking one of the following boxes:

- | | |
|--|--|
| <input type="checkbox"/> Industrial | <input type="checkbox"/> Agricultural |
| <input checked="" type="checkbox"/> Mining and Milling (includes exploration/drilling/exploration camps) | |
| <input type="checkbox"/> Conservation | |
| <input type="checkbox"/> Municipal (includes camps/lodges) | <input type="checkbox"/> Recreational |
| <input type="checkbox"/> Power | <input type="checkbox"/> Miscellaneous (describe below): |
- _____

Does the proposed amendment change the classification of primary undertaking?

Yes No

Describe the quality of the water source(s) and the available capacity(s). Identify any changes.: *No changes are anticipated. High Lake is the principal source for the High Lake Camp. High Lake contains approximately 7.3 million cubic meters of water. Based on existing water quality data, High Lake is naturally enriched with trace metals, with cadmium, copper, and zinc 20 to 100 times the Canadian guidelines for the protection of aquatic life and is acutely toxic to fish. Manganese and pH also periodically exceed drinking water guidelines. Potable water will be flown to camp until water quality can be confirmed for consumption. Per the Licence, water for drilling purposes is obtained from sources proximal to the drilling targets.*

Does the proposed amendment change the overall quantity of water to be used?

Yes No

Provide the overall estimated quantity to be used. Identify proposed changes.: *The permitted usage of 100 m³/day is being retained. No change in overall estimated water quantity is being requested.*

Does the proposed amendment change the quantity of water to be used from each source?

Yes No

Provide the estimated quantity(s) of water to be used from each source. Identify proposed changes:

Water Licence 2BE-HIG2328 permits the withdrawal of water from High Lake for camp use and from "sources proximal to drilling targets" for "drilling and associated uses", which may include High Lake. No significant changes to quantities of water to be used from each source are anticipated and total water usage under this licence would remain limited to a maximum of 100 m³/day.

Does the proposed amendment change the quantity of water to be used for each purpose?

Yes No

Provide the estimated quantities to be used for each purpose (camp, drilling, etc.). Identify proposed changes.:

No changes to the estimated quantities for each purpose are being requested.

Does the proposed amendment change the method(s) of extraction?

Yes No

Describe the method(s) of extraction. Identify proposed changes.: *No changes are anticipated. Submersible electric pumps with screened intakes are employed for domestic water usage in camp applications, and a diesel or gas-powered pump is normally used for extraction of water from adequate local sources proximal to areas of activity during drilling. Combustion motor operated pumps are used in conjunction with spill trays and spill containment equipment and are set back from the water bodies they are drawing from. Sources are evaluated to check that their volumes will be sufficient to support drilling activities without impacting the local water balance. Intakes are equipped with fish screens meeting the DFO water intake guidelines.*

Does the proposed amendment change the quantity(s) of water returned to source(s)?

Yes No

Estimated quantity(s) of water returned to source(s). Identify proposed changes: *0 m³/day; No water is directly returned to sources.*

Does the proposed amendment change the quality(s) of water returned to source(s)?

Yes No

Describe the quality(s) of water(s) returned to source(s). Identify any changes: *No water is directly returned to sources.*

14. WASTE

Check the appropriate box(s) to indicate the types of waste(s) approved in the existing licence.

- | | |
|---|--|
| <input checked="" type="checkbox"/> Sewage | <input checked="" type="checkbox"/> Waste oil |
| <input checked="" type="checkbox"/> Solid Waste | <input checked="" type="checkbox"/> Greywater |
| <input checked="" type="checkbox"/> Hazardous | <input checked="" type="checkbox"/> Sludges |
| <input checked="" type="checkbox"/> Bulky Items/Scrap Metal | <input checked="" type="checkbox"/> Contaminated soil and/or water |
| <input type="checkbox"/> Animal Waste | |
| <input checked="" type="checkbox"/> Other (describe): <i>Food</i> | |

Does the proposed amendment change the type(s) of waste(s) to be generated or deposited?

Yes No

If Yes, indicate using the boxes below, the proposed change(s) to the type(s) of waste(s) to be generated and/or deposited noting the addition, removal or continued generation and/or disposal of waste(s).

- | | |
|--|---|
| <input type="checkbox"/> Sewage | <input type="checkbox"/> Waste oil |
| <input type="checkbox"/> Solid Waste | <input type="checkbox"/> Greywater |
| <input type="checkbox"/> Hazardous | <input type="checkbox"/> Sludges |
| <input type="checkbox"/> Bulky Items/Scrap Metal | <input type="checkbox"/> Contaminated soil and/or water |
| <input type="checkbox"/> Animal Waste | |
| <input type="checkbox"/> Other (describe): _____ | |

15. QUANTITY AND QUALITY OF WASTE INVOLVED

Does the proposed amendment change the quantity(s) of the types of wastes involved?

Yes No

Does the proposed amendment change the composition(s) of the types of wastes involved?

Yes No

Does the proposed amendment change the method(s) of treatment for the types of waste involved?

Yes No

Does the proposed amendment change the method(s) of disposal for the types of waste involved?

Yes No

If Yes to any of the above, describe the proposed changes: *Not applicable*

For each type of waste indicated in Block 14, describe its composition, quantity in cubic meters/day, method of treatment and method of disposal.

Type of Waste	Composition	Quantity Generated	Treatment Method	Disposal Method
Sewage	Human waste	1 m ³ /day	Deposit in Pacto toilet then incineration, or use of latrine pit	Incinerator ash backhauled for disposal at approved facility
Burnable solid waste	Paper, plastic, wood, burlap, absorbent material, food wastes	20 bags/day	Incineration and/or open burning (excluding materials listed in Licence Part D Item 1)	Ash backhauled for disposal
Drill cuttings/waste	Rock dust and water/brine	1 m ³ /day when drilling	Consolidated in sump	Per Licence Part F, Item 2
Other solid waste	Plastic packaging or bottling, scrap metal, treated wood products, empty drums, building materials	Variable	Separation, removal of liquids, crushed and strapped or shipped whole	Backhauled for disposal
Hazardous waste	Batteries, contaminated materials, used filters, aerosol spray cans	Variable	Backhauled to Yellowknife	Backhauled for disposal
Bulk items/scrap metal	Empty drums, building materials	Variable	Drained, crushed and strapped or shipped whole	Backhauled for disposal
Waste oil	Waste oil	Variable	Backhauled to Yellowknife/burned in on site waste oil furnaces	Backhauled for disposal
Greywater	Kitchen, bathing, sinks and laundry water	5 m ³ /day	Kitchen grease trap, natural attenuation via sumps	Collection sump >31 m from high water mark which allows natural filtration through sand/gravel

16. OTHER AUTHORIZATIONS

Does the proposed amendment change the need for other authorizations in addition to the sub-surface and surface land use authorizations provided in Block 6?

Yes No

If Yes, indicate any additional authorizations required, which authorizations are no longer required, and which authorizations continue to be required.

For each provide the following:

Authorization: *CIRNAC LUP N2025C0021*

Administering Agency: *CIRNAC*

Project Activity: *The geographic extent of the LUP must be amended for exploration activities to occur on mineral claims on CIRNAC lands. Amendment is required.*

Date (expected date) of issuance: *June 2025* Date of expiry: *N/A*

Authorization: *IOL KIA Land Use Permit*

Administering Agency: *KIA*

Project Activity: *An LUP will be obtained for access to KIA land as required. This will be a new, required, application.*

Date (expected date) of issuance: *June 2025* Date of expiry: *TBD*

17. PREDICTED ENVIRONMENTAL IMPACTS OF UNDERTAKING AND PROPOSED MITIGATION MEASURES

Does the proposed amendment change the predicted environmental impacts of the undertaking or the mitigation measures?

Yes No

Describe direct, indirect, and cumulative impacts related to water and waste. Identify any changes. *Potential environmental impacts related to the use of water and the disposal of waste from camp operation and drilling, and mitigation measures, will remain the same as previously approved, including:*

- *Water for the camp water supply is sourced from High Lake, which has sufficient volume for permitted use*
- *Camp waste is incinerated and/or removed from site*
- *Greywater is discharged to a sump located more than 31 m from the nearest high water mark*
- *Drills and drilling supplies are positioned using helicopters to minimize ground disturbance when the ground is unfrozen*
- *When drilling in permafrost, salt (calcium chloride) is added to drill water to keep the drill rods from freezing in the hole and water may be heated. This water is recirculated.*
- *Water from drilling operations is recirculated to minimize the quantity of both water and salt used*

and to minimize runoff near the drill site

- *Drill cuttings are collected and subsequently deposited in a sump*
- *Drilling in lake bottom areas occurs within a casing to minimize sedimentation*

Cumulative impacts of drilling are reduced because of the above mitigation measures, as well as progressive reclamation of drill holes.

18. WATER RIGHTS OF EXISTING AND OTHER WATER USERS

Was compensation paid and/or an agreement(s) for compensation been entered into with any existing or other users of water during consideration of the existing licence?

Yes X No

If Yes, provide the names, addresses and the nature of water use by those persons or properties.

Does the proposed amendment adversely affect any known persons or property including those that hold licences for water use in precedence to the application, domestic users, in-stream users, authorized waste depositors, owners of property, occupiers of property, and/or holders of outfitting concessions, registered trapline holders, and holders of other rights of a similar nature?

Yes X No

If Yes, provide the names, addresses and the nature of water use of those persons or properties.

Advise the Board if compensation has been paid and/or an agreement(s) for compensation has been reached with any existing or other water users with respect to the proposed amendment.

19. INUIT WATER RIGHTS

Was compensation paid/ or an agreement(s) for compensation been entered into with any Designated Inuit Organization (DIO) during consideration of the existing licence?

Yes X No

If Yes, which DIO(s) _____

Does the proposed amendment substantially affect the quality, quantity or flow of waters flowing through Inuit Owned Land (IOL)?

Yes X No

If Yes, advise the Board if negotiations have commenced or an agreement to pay compensation for any loss or damage has been reached with one or more DIO(s) with respect to the proposed amendment.

No substantial effects to the quality, quantity, or flow of waters through IOL is expected to occur from water use and waste disposal contemplated in this licence renewal.

20. CONSULTATION - Provide a summary of any consultation meetings including when the meetings were held, where and with whom. Include a list of concerns expressed and measures to address concerns.

Prior to resuming exploration activities, engagement was carried out with nearby communities and relevant

regulators regarding exploration. A summary can be found on the NIRB public registry, Application Form No. 126178.

21. SECURITY INFORMATION

Does the proposed amendment change the financial security assessment?

Yes X No

Does the proposed amendment change the estimate of the total financial security for final reclamation?

Yes X No

Provide an estimate of the total financial security for final reclamation equal to the total outstanding reclamation liability for land and water combined sufficient to cover the highest liability over the life of the undertaking. Estimates of reclamation costs must be based on the cost of having the necessary reclamation work done by a third party contractor if the operator defaults. The estimate must also include contingency factors appropriate to the particular work to be undertaken. Identify any changes in the financial security assessment resulting from the proposed amendment.

Where applicable, the financial security assessment should be prepared in a manner consistent with the principals respecting mine site reclamation and implementation found in the *Mine Site Reclamation Policy for Nunavut*, Indian and Northern Affairs Canada, 2002.

A security estimate is provided with this application in the Closure and Reclamation Plan provided in Attachment 8. The Closure and Reclamation Plan is unchanged from the 2022 amendment and is still valid.

22. FINANCIAL INFORMATION

Is the statement of financial security the same as that considered in the existing water licence?

Yes X No

Provide an updated statement of financial security.

MMG Resources Inc. is a subsidiary of MMG Ltd. MMG Ltd.'s most recent financial statements can be found on its website at <https://www.mmg.com/annual-report>. Annual financial results for 2024 indicate that MMG Ltd. had cash and cash equivalents of \$192.7 million USD as of December 31, 2024. More information is available at: [MMG Annual-Report-2024.pdf](#)

If the applicant is a business entity please answer the questions below:

Is the list of the officers of the company the same as those considered in the existing water licence?

Yes No

Provide a list of the officers of the company.

*MMG Resources Officers:
Brent Nicholas Walsh – Director
Claudio Ernesto Caceres Franco - Director*

Is the Certificate of Incorporation or evidence of registration of the company name the same?

Yes No

Attach a copy of the Certificate of Incorporation or evidence of registration of the company name.

See Attachment 9.

23. STUDIES UNDERTAKEN TO DATE

List and attach updated studies, reports, research etc.

Provide a compliance assessment and status report including a response to any inspector's reports. The licensee must contact the NWB for licence specific direction in completing the assessment and report.

If in non-compliance, a licence may not be issued until compliance is achieved. If in non-compliance, attach plans/reports for consideration. Application will not be processed if significant issues of non-compliance exist.

Prior to the Care and Maintenance phase, extensive studies were conducted in relation to the High Lake Project and the associated Izok Corridor Project. A summary of these studies can be found in the Izok Corridor Project Proposal, found on the NIRB public registry under file number 12MN043. A summary of environmental studies conducted can be found in the Project Proposal – Volume 1 – Section 5.

High Lake Camp was inspected by Isaiah James Bolt, Resource Management Officer with CIRNAC on July 31, 2024, and consisted of a Water Licence Inspection Report and a Crown Land Use Inspection Form. Copies of the inspections and response to the inspections are included in Attachment 10.

24. PROPOSED TIME SCHEDULE

When are proposed amendments scheduled to be undertaken: June 2025

Does the proposed amendment change the time schedule considered in the existing licence for any phase of development?

Yes No

Indicate the start and completion dates for each applicable phase of development (construction, operation, closure, and post closure). Identify proposed changes.

Construction

Proposed Start Date: Already constructed Proposed Completion Date: _____
(month/year) (month/year)

Operation

Proposed Start Date: June 2025 Proposed Completion Date: June 2035
(month/year) (month/year)

Exploration activities will occur seasonally, typically during the open water season, but occasionally during winter if on-ice drilling targets are identified. Closure is not currently planned.

Closure

Proposed Start Date: _____ Proposed Completion Date: _____
(month/year) (month/year)

Post - Closure

Proposed Start Date: _____ Proposed Completion Date: _____
(month/year) (month/year)

For each applicable phase of development indicate which season(s) activities occur.

Construction

Winter Spring Summer Fall All season

Operation

Winter Spring Summer Fall All season

Closure

Winter Spring Summer Fall All season

Post - Closure

Winter Spring Summer Fall All season

25. PROPOSED TERM OF LICENCE

On what date does the existing licence expire? *February 14, 2028*

Is the Licensee applying for a combined renewal and amendment of the existing licence?

Yes No

If Yes, indicate the proposed term of the renewal (maximum of 25 years): _____ 10
years _____

Requested date of renewal issuance: ____ October 2025 _____ Requested Expiry Date: ____ June
2035 _____
(month/year) (month/year)

(The requested date of renewal issuance must be at least three (3) months from the date of application for a type B water licence and at least one (1) year from the date of application for a type A water licence, to allow for processing of the water licence application. These timeframes are approximate and do not account for the time to complete any pre-licensing land use planning or development impact requirements, time for the applicant to prepare and submit a water licence application in accordance with any project specific guidelines issued by the NWB, or the time for the applicant to respond to requests for additional information. See the NWB's *Guide 5: Processing Water Licence Applications* for more information)

26. ANNUAL REPORTING

Will the proposed amendment change the content of annual reports or the annual report template?

Yes No

If Yes, provide details regarding the content of annual reports and a proposed outline or template of the annual report.

27. CHECKLIST

The following must be included with the application for Amendment for the water licensing process to begin.

Completed Application for Water Licence Amendment form.

X Yes No If no, date expected _____

Information addressing Supplement Information Guideline (SIG), where applicable (see Block 11)

Yes X No If no, date expected Not applicable

Compliance Assessment / Status Report (see Block 23).

X Yes No If no, date expected Refer to Attachment 10 for Inspection Reports and associated responses

Indication of Renewal Requirement (see Block 26)

Yes X No If no, date expected Not applicable

English Summary of Amendment Application.

X Yes No If no, date expected Refer to Attachment 6 for a non-technical summary of the application

Inuktitut and/or Inuinnaqtun Summary of Amendment Application.

X Yes No If no, date expected Refer to Attachment 6 for a non-technical summary of the application in Inuktitut and Inuinnaqtun

Application fee of \$30.00 CDN (Payee Receiver General for Canada).

X Yes No If no, date expected _____

Water Use Fee Deposit of \$30.00 CDN (Payee Receiver General for Canada). The actual water use fee will be calculated by the NWB based upon the amount of water authorized for use in accordance with the Regulations at the time of issuance of the licence.

X Yes No If no, date expected _____
