**Re: Wolfden Resources Inc. – NWB2BE-HIG High Lake Project - Water Licence
Renewal – Type “B”**

The KIA has reviewed the High Lake Project water licence renewal application and supporting documents submitted by Wolfden Resources.

KIA has no objection to the renewal of the above mentioned application, provided that the terms and conditions provided in KIA Inuit Owned Land Use Licence# KTL303C006 are complied with during project operations.

In addition, KIA would like to recommend that camp grey water is filtered to remove food particles, oils, and animal fat and that the grey water sump is covered to prevent the attraction of wildlife.

Please contact us if you have any questions.

Sincerely,

Kevin Tweedle
Lands and Water Technician
