Dear Cassel Kapolak, Richard Dwyer, Brenda Pilakapsi, Tracy McCaie, and Eric Sondergaard

**RE: NPC File # 150848 [Hook Lake Project]**

The following works and activities have been proposed in the above-noted project proposal:

1. 6106 Resources Limited is planning early-stage gold exploration at the Hook Lake Project in the Rankin-Ennadai greenstone belt, Nunavut. Key activities include:
  - Exploration Activities: Rock, chip, and channel sampling, plus possible re-sampling of historic core samples. Up to 200 kg of rock samples will be collected and sent for geochemical analysis in Yellowknife or Vancouver. The fieldwork is expected to start mid-July and last up to two weeks, depending on weather, aircraft, and permit timing.
2. Location: Kivalliq Region; [near the community of Rankin Inlet].

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above-noted project proposal. It conforms to the Keewatin Regional Land Use Plan (KRLUP). The proponent has undertaken to comply with the applicable conformity requirements of Appendix C, G, and H of the KRLUP.

The project proposal is exempt from screening by the Nunavut Impact Review Board (NIRB). The project proposal does not require screening because it belongs to a class of works or activities set out in Schedule 12-1 of the Nunavut Agreement, and the NPC does not have concerns regarding the cumulative impacts of the project proposal.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address: <https://lupit.nunavut.ca/portal/registry/registry.aspx?appid=150848>

The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NuPPAA) to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above-noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits and other authorizations under subsection 69(6) of the NuPPAA.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 447-4563.

Sincerely,

Solomon Amuno, PhD  
Senior Planner  
Nunavut Planning Commission
