**Re: Implementation Plan to Address Issues Identified at the Windy and Boston Camps**

Please see the attached implementation plan that has been developed by Hope Bay Mining Limited to address issues identified by the Nunavut Water Board, INAC, and the Geotechnical Inspection of the Boston Camp in 2007.

If upon your review of the plan, if a face-to-face meeting would be desired between the NWB and HBML, this can certainly be arranged.

Thanks for your continued assistance and please contact me at 1-303-945-6937 or at [michael.meyer@newmont.com](mailto:michael.meyer@newmont.com) with any questions.

Yours truly,

Michael Meyer  
Interim Director, Environment and Social Responsibility  
Hope Bay Mining Ltd.
