**RE: 2BE-HOP2232 Notification of Discharge from Facilities Quarry D**

---

As per Part D, Item 15 of the Type B Water License 2BE-HOP2232, Agnico Eagle Mines Ltd. (Agnico) is providing written notification to the Inspector prior to the anticipated discharge of accumulated water from the containment facilities located at the Hope Bay Project Doris Advanced Exploration site.

**Table 1. Facility Estimated Discharge Volumes and Locations**

SNP Monitoring Station	Estimated Discharge Volume (m <sup>3</sup> )	Discharge Point (UTM NAD 83)
Quarry D	3500	13W 0432823 7551708

Water will only be discharged to the tundra upon receipt of analytical results that comply with the water quality criteria outlined within Part D of the water license. Effluent that does not meet the discharge criteria limits under Part D will be directed to the Doris-Madrid Tailings Impoundment Area.

Discharge volumes and analytical results for each monitoring station will be provided in the monthly monitoring reports.

If you have any questions or require clarification on any of the information provided, please contact me.

Regards,

**Guy Dufour**  
Environmental General Supervisor– Hope Bay
