Hi Sharleen.

We have received NIRB's screening report this morning. Are you planning to file additional information re: applicant name?

Otherwise, we are ready to request external review.

Regards, Assol

Hi Sharleen,

It will be better if you could provide the name change information along with the updated application form so we could include these info within the application package for public review.

Blue Star has decided that they want a wholly owned subsidiary to hold the authorizations for Hood River, as opposed to Blue Star. I don't believe that this would require an assignment as the overall corporate ownership remains the same. Rather a name change process, much like the one undertaken to change from WPC Resources to Blue Star I believe to be appropriate.

Given the renewal application underway, what is the most expedient way to handle this? I have the articles of incorporation, etc. that I can make available. Would you like me to issue these along with a new application form, or, is it better to proceed through the renewal process as is and change the name afterwards?

Sharleen
