Good morning Mr. Goad,

**RE: Ulu/Hood River Mining Lease (Inukshuk)**

Thank you for your email(s).

The Nunavut Planning Commission (NPC) has reviewed the attached documents and the information contained in the email chain below has determined that the project proposal as described is located outside the boundaries of the two approved land use plans currently administered by the NPC.

Please ensure that any change in scope of the proposed project is forwarded to the NPC so as a determination can be made as to whether a conformity review is required.

The Nunavut Water Board (NWB) have been copied with this email for their information.

Please contact me should you have any questions.

Sincerely,

Christopher Tickner MCIP, RPP

Hi Chris:

As promised, attached are the location and coordinates of the property.

If you require anything else, give me a shout.

Thanks.

Bruce

Good morning Bruce,

Brian Aglukark has forwarded your enquiry to me for response.

Could you please provide me with a map and/or coordinates of the activities described below?

On receipt, I will be able to confirm whether or not the activities are in an area where there is an approved land use plan currently administered by the NPC.

Please contact me should you have any questions.

Regards,

Christopher Tickner MCIP, RPP

Hi Brian:

As I haven't received anything back from you in response to my request last week (see the email below) for permission/acknowledgement from the NPC for information to be included in the permitting process for our planned exploration program, I thought that I should re-contact you to confirm that the process is moving forward and that you do not require more information.

Once I receive confirmation/letter from the NPC, I will be able to submit my permit applications and initiate a NIRB screening for the program.

If you require anything else, give me a heads up. If you are not the correct person to contact with respect to this request, please suggest the appropriate person.

Many thanks,

Bruce

**Subject:** Confirmation letter required as per NWB application.

Good morning Brian:

Inukshuk Exploration Incorporated holds a valid Mineral Exploration Agreement (HoodRiver-001) with NTI. I am beginning the process of submitting applications required for the various permits which will enable us to undertake an exploration program. One of the applications to be completed is the NWB application for a water licence. Section Seven of this application concerns information for the Nunavut Planning Commission:

**7. NUNAVUT PLANNING COMMISSION (NPC) DETERMINATION**

Indicate the land use planning area in which the project is located.

<input type="checkbox"/> North Baffin	<input type="checkbox"/> Keewatin
<input type="checkbox"/> South Baffin	<input type="checkbox"/> Sanikiluaq
<input type="checkbox"/> Akunnig	<input type="checkbox"/> West Kitikmeot

Is a land use plan conformity determination required?

☐ Yes                      ☐ No

If Yes, indicate date issued and attach copy \_\_\_\_\_

If No, provide written confirmation from NPC confirming that a land use plan conformity review is not required.

The area I will be establishing the camp is in the Kitikmeot. The existing Ulu Camp at the Ulu Mine site will be utilized as the base camp. No other camps will be required. Can you indicate to me if a land use conformity determination would be required for this operation? If one is required, how do I initiate this process and if not required, could I request a letter/email from you confirming that a plan review would not be required that I can include in the NWB Application?

Thank you.

Regards,

Bruce Goad, P. Geo.
