On Wednesday August 11, 2021, I, Baba Pedersen, Resource Management and Water Resource Officer with Crown-Indigenous Relations and Northern Affairs Canada, the Writer of this Report, did Inspect the Holder (Blue Star Gold Corporation) of Water License number 2BE-HRP1924 (and NIRB #19EA019) issued for the Hood River and ROMA Gold Projects located at approximately N 67° 15' and W 112° 28' in the Kitikmeot Region of Nunavut.			
I was accompanied in the Helicopter Flyover Inspection by Wynter Blais and Tannis Bolt from the Kitikmeot Inuit Association			
SECTION 2	<input checked="" type="checkbox"/> Comments	<input type="checkbox"/> Non-Compliance with Act or Licence	<input type="checkbox"/> Action Required
This was a Fly-Over Inspection only of the old Hood River Camp (Photos 1 to 3) that has been previously Cleaned up. Only Core Boxes and a Pile of Wooden Pallets remain on site.			
The Inspector requested that Blue Star remove all Wooden Pallets from the Hood River Camp Site.			
Unfortunately we were not able to visit any of the Activities under the Roma Gold Project at this time			
SECTION 3	<input type="checkbox"/> Comments	<input type="checkbox"/> Non-Compliance with Act or Licence	<input checked="" type="checkbox"/> Action Required
As per Photo #4 provided by Blue Star, the Inspector can confirm that Blue Star did indeed remove the Wooden Pallets as requested.
