	<p>WPC is in the process of acquiring the Ulu Property from Mandalay Resouces and as such (once the transaction has completed) WPC will be responsible for the 2BM-ULU0914 licence. As stated in the water licence, Part E, Item 2, a letter of agreement between WPC and the holder of Licence 2BM-ULU0914 is required. We are currently working on acquiring this letter from Mandalay Resources as at this moment, they now own Elgin Mining/Bonito.</p>
Date Submitted/Contact Info	<p>Licence 2BM-ULU0914 is currently being renewed by Mandalay as part of the ULU Acquisition Agreement WPC has negotiated with Mandalay.</p> <p>For clarity as requested by AANDC (Courtney Cox, July 24, 2014), initially the use of one drill rig is planned using an estimated 60m³ of water per day. If a second rig is warranted, it may be moved onsite which would increase the water consumption to an estimated volume of 120m³/day. Prior to a second drill is moved onsite, WPC will request an amendment to the current licence permitting it to draw 120m³ of water per day.</p> <p>Fuel Spill Contingency Plan amended as per AANDC requests.</p>
