Good afternoon Phyllis:

Attach please find the 2015 Annual report for NWB Licence 2BE-HRP1419 issued to WPC Resources Corp. As you will see, no exploration program was undertaken during 2015; consequently, no water was used/consumed.

I have also attached the updated WPC Abandonment and Decommissioning Plan and the updated Fuel Spill Contingency Plan as requested for 2BE-HRP1419 and noted all changes in the addenda. Please note that the list of directors of WPC has also been updated in these documents.

I have not circulated these documents as I believe that NWB will circulate as required. If this assumption is not correct, please let me know and I will arrange for circulation to the appropriate organizations. Thanks you.

If you require anything else on this file, please feel free to contact me.

Regards,

Bruce Goad
