Hi Richard,

Please find attached the annual report for Ulu, along with five updated management plans (submitted in a series of four emails). Plan updates are predominantly administrative and/or pursuant to water licence conditions.

Note that Blue Star has merged Hood River (2BE-HRP1924) and Ulu management plans for operational efficiency as the Hood River Camp is closed and moving forward, all activities will be centralized out of Ulu. For filing efficiency and reporting completeness, a full suite of applicable plans is included with each annual report.

Also note that Blue Star is providing 1 annual report for Ulu addressing both NIRB and NWB annual reporting requirements under one cover as there is quite a bit of overlap between the various reporting requirements. A table of concordance for each authorization is included in the annual report.

Finally, note that I'm providing an updated ICRP. I'm only providing the body of the main plan and not the appendices; the appendices previously submitted as standalone documents, and subsequently approved, are unchanged.

I'm not sure who our new technical advisor will be. Once assigned, I'm happy to chat with them to introduce Blue Star and the projects, should that be helpful.

Kind regards,

Sharleen
