Water license 2BE-HUC1823, Part B item 2:

2. The Licensee shall file an Annual Report on the Appurtenant Undertaking with the Board no later than March 31st of the year following the calendar year being reported, containing the following information:

- a. A summary of Water use and Waste disposal activities;
 - *No exploration activities were conducted in 2023 under this water licence and no water was used and no waste was generated.*
- b. Quantity of Water (in cubic metres/day) obtained for domestic and other purposes from sources on, in or flowing through Inuit-owned lands for the reporting period;
 - *No water used in 2023.*
- c. Quantity of Water (in cubic metres/day) obtained for domestic and other purposes from sources on, in or flowing through Crown lands for the reporting period;
 - *No water used in 2023.*
- d. Quantity of Waste disposed of on on-site Waste disposal facility;
 - *No waste disposed of in 2023.*
- e. Quantity of Waste backhauled to approved facility for disposal;
 - *No waste backhauled in 2023.*
- f. A list of unauthorized discharges and a summary of follow-up actions taken;
 - *No unauthorized discharge occurred in 2023.*
- g. Any revisions to the Plans, as required by Part B, Item 7, submitted in the form of an Addendum;
 - *No revision proposed at this time.*
- h. A description of all progressive and or final reclamation work undertaken, including photographic records of site conditions before, during and after completion of operations;

- *During summer 2022, the remaining 205-Litres fuel drums stored in secondary containment (berm) were removed from the camp site then transported to the Meliadine mine site and in 2023 the exploration camp was completely removed from the site. All tents and material were transported by helicopter to Whale Cove then transported to the Meliadine camp site.*

Photo 1, Former camp site location

- i. Report all artesian flow occurrences as required under Part F, Item 13;
 - *No artesian flow occurrences in 2023.*
- j. A summary of all information requested and results of the Monitoring Program;
 - *No monitoring program was applicable in 2023 as no exploration activities were conducted.*

- k. Details pertaining to locations of sump (s) and drill holes;
 - *No sump or drill hole done in 2023 under this water licence.*
- l. GPS co-ordinates (in degrees, minutes and seconds of latitude and longitude) for the locations of all temporary camps established in support of the project if the actual coordinates differ from that provide in the application;
 - *The exploration camp was located at: 62° 7' 14.641" N, 93° 51' 42.201" W.*
- m. A summary including photographic records before, during and after any relevant construction activities or Modifications and/or major maintenance work carried out on facilities under this Licence and an outline of any work anticipated for the next years;
 - *No construction done in 2023.*
- n. Detailed discussion on the performance, installation, and evaluation, including the use photographic record, of the primary and secondary containment functions use in fuel storage to safeguard impacts to freshwaters.
 - *No fuel storage on site in 2023.*
- o. A summary of public consultation/participation, describing consultation with local organizations and residents of the nearby communities, if any were conducted;
 - *No summary to present as exploration activities in 2023 don't include works in the area covered by this licence.*
- p. Any other details on Water use or Waste disposal requested by the Board by the 1st November of the year being reported;
 - *No other details were requested by the Board.*
