

AGNICO EAGLE

Non-Technical Summary

Huckleberry-0001 mineral property

Request for Renewal of Water Licence 2BE-HUC1823

Agnico Eagle Mines Limited holds the mineral exploration property Huckleberry-0001 on which exploration activities were permitted by various authorizations.

The Huckleberry-0001 mineral exploration property is located on Inuit Owned Land surface and subsurface at approximately 65 km mostly west of the Whale Cove community. Mineral exploration activities were conducted in the area covered by this licence in 2018 and an exploration camp was installed.

The water licence 2BE-HUC1823 authorizing mineral exploration activities on the Huckleberry-0001 mineral property is set to expire in October 2023. The present application is to obtain the renewal of this licence. No modification is requested by this application, and all existing terms and conditions would continue to be applied.
