Attn: Rita Becker

Dear Ms. Becker,

Inmet Mining Corporation is planning to conduct a very short drill program at its Izok exploration project during this coming summer. To support this, and also environmental studies which are planned, we would like to re-open the existing camp at Ham Lake which is located on surface lease #3055, just to the north of Izok.

Please find attached an application and supporting documentation for a Water Licence to allow us to carry out the drill program and re-open the camp. I trust you will find it in order.

Please do not hesitate to contact me if I can provide any further information.

Yours truly,

Inmet Mining Corporation  
Ian D. Pirie

Director, Corporate Development and Izok Project Manager
